Introduction

The District Improvement Plan (DIP) has been designed to provide schools and districts with a common planning template that addresses student learning and system needs that have been identified through the schools' Comprehensive Needs Assessment.

Improvement Plan Stakeholder Involvement

Introduction

The responses should be brief, descriptive, and appropriate for the specific section. It is recommended that the responses are written offline and then transferred into the sections below.

Improvement Planning Process

Improvement Planning Process

Describe the process used to engage a variety of stakeholders in the development of the institution's improvement plan. Include information on how stakeholders were selected and informed of their roles, and how meetings were scheduled to accommodate them.

The District School Improvement Committee includes members from all stakeholder groups, including teachers, building administrators, central office administrators, Board of Education members, parents, and community representatives. Each individual building sends their steering committee chairpersons and recruits parents at their annual parent meetings. The committee meets during the school day a minimum of 4 times a year, with substitutes provided for classroom teachers.

The process used to develop the improvement plan begins with the District Improvement Committee. The committee reviews the district data (achievement, perception, demographic, and process) and completes an analysis. After this analysis, the improvement plan is reviewed and revised with input from all stakeholders and suggestions from each individual building in the district. Once the plan is complete, the committee representatives share it with their respective buildings, and the committee chairperson shares it with the Board of Education and community members.

Describe the representations from stakeholder groups that participated in the development of the improvement plan and their responsibilities in this process.

The District Improvement Committee is led by Mrs. Cathy McGilvery, Assistant Superintendent. The committee includes elementary, middle school, and high school principals, the district Title I coordinators, district academic coaches, and classroom teachers from the steering committees at each building. It also includes Board of Education members, parents and community representatives. Each group reviews the plan from their unique perspective and participates in revising and improving the plan.

Explain how the final improvement plan was communicated to all stakeholders, and the method and frequency in which stakeholders receive information on its progress.

Throughout the process of developing the plan, the committee members report back to their respective groups to ensure that all stakeholders are involved and informed. Once the plan is complete, representatives share it with each building, the Board of Education, and parent/community representatives.

Plan Description

Goals Summary

The following is a summary of the goals encompassed in this plan. The details for each goal are available in the next section.

#	Goal Name	Goal Details	Goal Type	Total Funding
1	All students in Carman-Ainsworth Community Schools will be proficient in science.	Objectives: 1 Strategies: 6 Activities: 21	Academic	\$2500
2	All students in Carman-Ainsworth Community Schools will be proficient in reading.	Objectives: 4 Strategies: 7 Activities: 32	Academic	\$0
3	All students in Carman-Ainsworth Community Schools will be proficient in writing.	Objectives: 1 Strategies: 4 Activities: 15	Academic	\$0
4	All students in Carman-Ainsworth Community Schools will be proficient in social studies.	Objectives: 1 Strategies: 4 Activities: 15	Academic	\$2500
5	All students will exemplify the Carman-Ainsworth belief statements that each student, parent and staff member have a right to be safe, respected and treat others as they wish to be treated.	Objectives: 1 Strategies: 1 Activities: 7	Organizational	\$0
6	All students in Carman-Ainsworth Community Schools will be proficient in math.	Objectives: 2 Strategies: 8 Activities: 30	Academic	\$0

Goal 1: All students in Carman-Ainsworth Community Schools will be proficient in science.

Measurable Objective 1:

A 8% increase of Pre-K, Kindergarten, First, Second, Third, Fourth, Fifth, Sixth, Seventh, Eighth, Ninth, Tenth, Eleventh and Twelfth grade Black or African-American, Asian, White, Children in a Military Family, Children in Foster Care, Economically Disadvantaged, Gifted and Talented, Hispanic or Latino, Homeless, Students with Disabilities, English Learners, Two or More Races, American Indian or Alaska Native and Native Hawaiian or Other Pacific Islander students will demonstrate a proficiency annually in Science by 06/14/2019 as measured by state and local assessments..

Strategy 1:

Building Science Vocabulary and Comprehension - Teachers/staff will facilitate Common Core vocabulary and comprehension activities in order to increase each student's depth of knowledge in content areas.

Goal 5: All students will exemplify the Carman-Ainsworth belief statements that each student, parent and staff member have a right to be safe, respected and treat others as they wish to be treated.

Measurable Objective 1:

demonstrate a behavior in the school environment which shows we are respectful, safe and treat others how we would want to be treated by 06/14/2019 as measured by a 10 percent reduction in the number of behavior referrals..

Strategy 1:

Behavior Intervention Programs - Teachers will actively engage students in learning, individually and collaboratively, within the school environment. (Tier I)

Students with behavior referrals will receive instruction in Restorative Practices, Ripples Effect Computer Program, Why Try and other counseling techniques, mentoring, check in/check out, Heart Math, sensory integration techniques, (fine and gross motor), alternative seating choices, ADHD strategy intervention, appropriate anger management techniques, use of visuals (Boardmaker), behavior intervention plans (level 1 and level 2) to address individual student's specific needs, etc. (Tier II)

Category: Mathematics

Research Cited: Classroom Instruction that Works, Robert Marzano (2001).

Student achievement can increase when teachers show the relationship between an increase in effort to an increase in success (Craske, 1985; Van Overwalle & De Metsenaere, 1990).

Not all students know the connection between effort and achievement (Seligman, 1990, 1994; Urdan,

(shared) Strategy 5:

Multi-Tier Interventions - A multi-tier intervention system will be implemented. District staff will design intervention plans that include effective supplemental instructional strategies delivered with fidelity for students with specific learning needs based on a Multi-Tier System of Support (MTSS) as well as other necessary support to allow all students (homeless, EL, foster, migrant) to fully participate in the academic program. District instructional staff (teachers, paraprofessionals and coaches) will create classroom related interventions (computer adaptive software programs, Marzano strategies, extra time on content) as evidenced by activities such as: after school tutoring, direct instruction, TOMMI, progress monitoring, Differentiated Instruction, transportation, counseling services, etc.

Measurable Objective 2:

A 8% increase of Black or African-American students will demonstrate a proficiency annually in Mathematics by 06/14/2019 as measured by state and local assessments.

(shared) Strategy 1:

Multi-Tier Interventions - A multi-tier intervention system will be implemented. District staff will design intervention plans that include effective supplemental instructional strategies delivered with fidelity for students with specific learning needs based on a Multi-Tier System of Support (MTSS) as well as other necessary support to allow all students (homeless, EL, foster, migrant) to fully participate in the academic program. District instructional staff (teachers, paraprofessionals and coaches) will create classroom related interventions (computer adaptive software programs, Marzano strategies, extra time on content) as evidenced by activities such as: after school tutoring, direct instruction, TOMMI, progress monitoring, Differentiated Instruction, transportation, counseling services, etc.
